## Odessa

In October, 2007 I had the honor of visiting Ukraine as an ad hoc *Cultural Emissary* sent by the US Department of State under the auspices of their *Art In Embassies* Program. Beyond my scheduled events, the Embassy staff made special arrangements for behind-the-fence visits to sites that were of particular interest to my creative endeavors, including the great Port of Odessa on the Black Sea. It is a major Maritime transportation hub for Eastern Europe and handles a wide variety of products.

All Images are printed on archival paper using archival inks. All image sizes are unframed
